

CRAFT HERRINGBONE

Perfect for a multitude of design styles, CRAFT's Herringbone Collection is timeless. Its stunning visual appeal and versatility prove suitable for spaces ranging from wine cellars to great rooms. All three specifications of CRAFT Herringbone are available in any colour from the CRAFT palette.

ARCHITECTURAL: 7" x 42" | TRANSITIONAL: 5" x 30" | CLASSIC: 3" x 18"
(Shown above, in EVORA) (Shown below, in CORDOBA)

THE ULTIMATE IN DESIGN FLEXIBILITY

CRAFT's customers tend to value the freedom of expression for creative designs, so we have responded by making every colour in the CRAFT palette available for all three of our herringbone specifications. So, whether it's the beautiful taupe of a Turin Walnut or the rich brown of a hand textured Aragon Hickory, the multitude of options available for CRAFT herringbone provide a new avenue for creative expression.

COMPATIBILITY WITH REGULAR PLANK FLOORING

All of CRAFT's herringbone planks are milled, textured and finished to be a perfect match to CRAFT's regular plank flooring. This allows for project designs where herringbone will be used in some spaces, and with regular plank flooring used in other adjoining spaces.

OUR COMMITMENT TO SUSTAINABILITY STANDS

CRAFT Architectural and Transitional Herringbone are made with the same materials, by the same teams, in the same factory. Therefore, specifiers can rest assured that CRAFT's herringbone will contribute to safe and healthy living spaces as attested by our Declare label with Red List Free designation and GREENGUARD Gold ultra-low VOC certification. As with all of CRAFT's regular plank flooring, our Architectural and Transitional Herringbone are made only with certified sustainable North American wood, because when it comes to any wood product, the sustainability of the source really matters.

3 AVAILABLE SPECIFICATIONS

CRAFT manufactures herringbone with a choice of three different specifications:
