

CRAFT

HERRINGBONE

Perfect for a multitude of design styles, CRAFT's Herringbone Collection is timeless. Its stunning visual appeal and versatility prove suitable for spaces ranging from wine cellars to great rooms. All three specifications of CRAFT Herringbone are available in any colour from the CRAFT palette.

ARCHITECTURAL: 7" x 42" | TRANSITIONAL: 5" x 30" | CLASSIC: 3" x 18"
(STANDARD SPECIFICATION)

DESIGN FLEXIBILITY

Our customers tend to cherish creative freedom, prompting us to make every color in our palette available across the three herringbone specifications. Whether it's the elegant taupe of Turin Walnut or the natural brown of VintageCRAFT Aragon Hickory, our herringbone options open up fresh avenues for creative expression

COMPATIBILITY WITH REGULAR PLANK

All herringbone planks are milled, textured and finished to be a perfect match to regular plank flooring. This allows for project designs where herringbone will be used in some spaces, and with regular plank flooring used in other adjoining spaces

COMMITMENT TO SUSTAINABILITY

Architectural herringbone flooring is made with the same materials and by the same team that makes our straight plank flooring. In support of safe and healthy living spaces, they meet stringent standards as shown by our Declare label with Red List Free designation (for CRAFT) and GREENGUARD Gold certification (for both CRAFT and UrbanWood). Like our regular planks, Architectural herringbone uses only certified sustainable North American wood, underscoring the importance of sustainable sourcing (for CRAFT).

3 AVAILABLE SPECIFICATIONS
