COLOUR VARIATION

Medium colour variation

WOOD GRADE

CRAFT Natural Grade: Specially selected to limit excessive colour variation while highlighting some of the wood's natural characteristics

WOOD PATTERN / GRAIN

The planks used in Murlo floors will showcase a variety of the natural grain patterns of Hickory, ranging from heavy heartwood to heavy sapwood, although any contrast between the heartwood and sapwood is greatly diminished by the coloration process

TEXTURE / BEVEL

Refined techniques including wire-brushed texturing make the grain of a real wood floor come alive. Planks are moulded with a 0.7mm radius micro-bevel

WOOD FILLER

All wood floors require some amount of wood filling to compensate for surface imperfections. CRAFT's Artisan Team has created wood filler specifically for Murlo that is designed to harmonize beautifully with Murlo's natural tones

GLUE

Highest quality, formaldehyde-free adhesive used to glue all components; CARB2 Compliant

FINISH

DuRa Finish™ Ultra Matte looks natural and harmonizes with wood's natural texture, while offering superior protection. CRAFT floors are regularly tested by Underwriters Laboratories for VOC emissions and consistently achieve the highest rating of GREENGUARD Gold, demonstrating an ultra-low level of emissions and ensuring a healthy living environment with excellent indoor air quality

As an option, DuRa Finish™ Ultra Matte can be upgraded to DuRa Finish™ Commercial. This is a great solution for flooring used in a commercial setting where it will receive more foot traffic than in a regular residential application, and where increased abrasion resistance is required

GLOSS LEVEL

Matte finish with a gloss level of 6-8%
